

EM350A/ 350M END MILL

EM350A END MILL MACHINE

The EM350A is a Horizontal end milling machine with automatic feeding, milling at 45°/90°/-45° and intermediate degrees with quick change of the cutter block. Equipped with spindle with adjustable speed till 5000 rpm for EM350A. Useful stroke 390mm. Max cutter diameter 200mm. Three phase motor 2,5 HP. Working pressure 7 bar. Overall dimensions 104x72x130 cm. Weight 140 kg

EM350M END MILL MACHINE

The EM350M is a Horizontal end milling machine with manual feeding, milling at 45°/90°/-45° and intermediate degrees with quick change of the cutter block. Equipped with spindle at 2800 rpm. Useful stroke 390 mm. Max cutter diameter 200 mm. Three phase motor 2,5 HP. Working pressure 7 bar. Overall dimensions 104x72x130 cm. Weight 140 kg.

COMPONENTS SUPPLIED:

- Pneumatic clamping set
- 6 position turret stop for milling depths
- Pneumatic lubrication
- No. 1 cutter block 32mm
- Air gun
- Air filter
- Full protection guard
- Tool Kit
