

TPW-20 TWO HEAD WELDER

TPW-20 TWO HEAD WELDER

The TPW-20 PVC welding machine is a two head welder with a maximum height 180 mm (7 in.) capability. Quick fixture changing. Spew limiting knives adjustable between 0,2mm (for laminated wood-finish profiles) and 2 mm (for white profile). The temperature can be adjusted between 0-350 ° C with an electronic thermostat.

TECHNICAL SPECIFICATIONS:

- Fixed left hand welding head
- Movable right hand welding head
- Maximum profile height 180 mm (7in.)
- Maximum length 3000 mm (9'10")
- Welding of angles different from 90°: with right head
- Welding of the angles at 90° in one working cycle
- Automatic opening of the head at the end of the working cycle
- Welding plates temperature, welding and joining timers can be set on a visual PLC
- Pressure switch
- Two hands working cycle
- Automatic control of fusion times
- Automatic control of welding times
